Jalbai, Swabi, Pakistan

## ABOUT ME

As a dedicated Software Engineer, I bring expertise in web and cross-platform development. My abilities encompass crafting sophisticated web applications and creating robust, versatile software for varied platforms. Beyond code, I have a keen eye for design, fashioning visually appealing and intuitive interfaces. I am driven by a passion to enrich user experiences and facilitate business growth through innovative tech solutions.

## EXPERIENCE

### Chief Technology Officer & Software Engineer

CarChaze Private Limited, Lahore, PK (2021-2023)

At CarChaze, Pakistan's pioneering car-sharing service, I served as a CTO & Developer, delivering complete software solutions. My role entailed building the entire back-end and front-end with React Native, creating reusable components for future use, and ensuring the platform's easy scalability and maintenance.

## SKILLS

### Full Stack Development

- Frontend Development: ReactJS, NextJS
- Backend Development: NodeJS, ExpressJS
- Database Management: MySQL, Mongo, Firebase
- Real-time communication: Socket.IO

### Cross-Platform App Development

- React Native
- ElectronJS

### REST API Design and Development

### Cloud Computing & Deployment

- Firebase & Google Cloud Platform

### Design Skills

- UI & UX Design: Figma, Adobe XD

### Project & Team Management Skills

- Agile Project Management
- Team Coordination & Collaboration

### Soft Skills

- Negotiation
- Problem-Solving

## EDUCATION

### BSc. Computer Science

University of Engineering and Technology  
Peshawar (2020-present)

Engaged in BS Computer Science studies, focusing on practical aspects of technology and programming. Discontinued education to proactively pursue professional opportunities.

### Internship

Xeros Private Limited, Peshawar, PK  
(2019-2020)

Undertook an enriching internship at Xeros Private Limited, gaining practical software development experience and enhancing proficiency in web applications.
